

FRESH POD[®] PRODUCTS

Fresh Pod neutralizes 98.9% of the ethylene gas naturally released by fresh produce as it ripens, keeping produce fresh for up to 4 times longer than normal.

Filters - available in 2 sizes

457mm x 178mm x 51mm filter (18" x 7" x 2")

Ideal for walk-in coolers, refrigerated trucks and containers, including small cold storage rooms up to 85 cubic metres (3,000 cubic feet).

457mm x 508mm x 51mm filter (18" x 20" x 2")

Ideal for larger walk-in coolers and small cold storage rooms up to 283 cubic metres (or 10,000 cubic feet).

FP-1/3 air filtration system

Ideal for large cold storage.

One FP-1/3 filtration system can effectively reduce ethylene gas readings by 98.9% in storage areas from 2123.8-4247.5 cubic metres (75,000-150,000 cubic feet), depending on the commodities being stored.

Sachets

Ideal to include in refrigerators or add to deliveries to protect provisions against changes to shipping schedules.

Sachets are available in 28 gram weights as 12-month kits and single use sachet kits. The sachet is wrapped in non-biodegradable plastic and the pod is made of recyclable plastic and can be reused for new sachets.
