

MARINE PROCUREMENT

We offer a streamlined, yet flexible direct ordering service, where our customers enjoy the benefits of our high supply quality, strong supplier network, and global economy of scale when needed.

Our global services cover provisions, bonded goods, stores consumables, and technical stores including private orders and container rentals.

Global supply coverage

You benefit from our purchase expertise and world-wide supply chain with access to audited suppliers and large volume of scale. We guide you to the best port to supply through our supplier network, benchmarking several suppliers for you in each port.

Smart vendor management

You'll only need one vendor. We manage your full handling of supplies, including claims and returns. Well-established invoicing procedures allow you to spend time where it matters the most.

High supply quality and security

Partnering with NSF, a global leader in public health and safety, we ensure a high level of quality, security, and crew welfare. NSF has audited over 500 suppliers on behalf of Garrets. This is your insurance for safe, consistent, and high-quality deliveries.

One point of contact

We're your extended arm to cover local suppliers with liability to give you peace of mind. Let our specialized team benchmark, quote, and arrange supplies as per your order confirmation.
